

Expanding LPFM to take priority over current translator service would be devastating for the thousands that make up the K-LOVE community family of listeners. The K-LOVE translator service binds us together, representing the very best of what radio was designed to accomplish. I work for a group of six other stations, but I spend almost all of my listening time with the local K-LOVE translator... that's how important it is in my life! PLEASE... DO NOT MAKE THIS RULE CHANGE. If it happens, the best of America will be adversely affected and thousands of souls desperately searching for hope in these crazy times will go uncomforted.
